

D1 Pharmacy Notification

**New message from pharmacy:
Please call before 4:00 PM about a refill question.**

SETUP

Introduce around the 5-minute mark while the patient is filling the organizer.

OBSERVE

Does the patient pause, save their place, handle the interruption, and return accurately?

(c) 2026 STRIVE Physical Therapy | Las Vegas

D2 Appointment Alarm

**Appointment reminder:
You need to leave in 10 minutes.**

SETUP

Set a timer or phone alarm to sound around the 8-minute mark. Do not coach immediately.

OBSERVE

Do errors increase after the alarm? Does the patient rush or lose their place?

(c) 2026 STRIVE Physical Therapy | Las Vegas

D3 Similar-Looking Bottles

**These two bottles look similar.
Check the medication name before placing pills.**

SETUP

Use two bottles with similar labels, caps, or pill colors.

OBSERVE

Does the patient read labels or choose by appearance?

(c) 2026 STRIVE Physical Therapy | Las Vegas

D4 Nearly Empty Bottle

This bottle has only 3 pills remaining.

SETUP

Place this card beside the low-supply bottle or tape it to the bottle.

OBSERVE

Does the patient identify refill need and plan to call before running out?

(c) 2026 STRIVE Physical Therapy | Las Vegas

D5 Take With Food

TAKE WITH FOOD

SETUP

Place beside one medication bottle as an added instruction.

OBSERVE

Does the patient notice the special instruction and connect it to meals?

(c) 2026 STRIVE Physical Therapy | Las Vegas

D6 Therapist Timing Card

Helper sequence:

Give task -> observe -> pharmacy note -> alarm -> ask -> score.

SETUP

Keep this card for the helper, not the patient.

OBSERVE

Score accuracy, self-correction, label use, refill awareness, and interruption recovery.
